Subject: Meeting With Ward Irrigation District on 2/20 at 3 p.m.

This message is from Betty Frost, Secretary of the Ward Irrigation District.

I have spoke with Joanne Johnson and Glenda Wiles and am encouraged that you would consider meeting with the Water Commissioners of the Ward Irrigation District on February 20th.

The purpose for requesting this meeting is to discuss the possibility of obtaining a short term loan to cover indebtedness the Water District owes due to Water Court Adjudication costs and a major wash out to our irrigation system on August 30th 2006. Our water tax revenues are invested in the County Pool fund.

I understand our request is not precedence setting, that the county has loaned money to the Bitterroot Aquatic Center.

Please confirm this appointment. We will plan to bring amount of loan, proposal for raising the additional income to make payments and term of loan. Please advise if additional information will be necessary.

Sincerely,

Betty Frost, Secretary, Ward Irrigation District
